

## **CAPABILITY STATEMENT**

### **Company Data**

Chronos Analytics is a minority-owned small business which provides software that helps in the integration process of new government personnel and enlisted recruits. Built upon optimization and efficiency, Chronos provides a cloud-driven tool where various departments involved in the hiring and enlistment process can interact, track, and comment within a functional workflow-driven space.

Our mission is to assist department heads in having a deeper understanding of their staff and how to place them on various paths to success while performing at a high level to better serve our enlisted and government. Contact us to learn more about our federal contracting abilities.
